Efrem Yohanis Anbese

Dear Sir or Madam

This letter is to introduce myself and to let you know of my interest in becoming a part of your company. More information about my educational background, training and work experience can be found in the attached resume. I assure you that I can successfully fulfill any obligations requiring any responsibility from your company.

I graduated from Adama Science and Technology University with a Bachelor of Science in Computer Science and Engineering and a Major GPA of 3.48 and a CGPA of 3.37. My current goal is to find a job that will allow me to fully utilize my skills while also providing opportunities for professional growth.

I have experience in the Django framework and as a group, we built a beer sales and distribution system for BGI Ethiopia in my BSc Project. We are the 5th best project winner from the computer science and engineering department, and I received a recognition paper from the department dean, Dr. Biruk Yirga Nidaw.

I also have certificates for CISCO certificate of completion, Cybersecurity, and many more short online courses. I believe in excellence and have always dedicated myself, my talents, and my creative abilities to ensure the successful achievement of any company's goals. My positive attitude and willingness to give my all make me a valuable asset to any organization that hires me. I am confident that my skills will be an asset and have a positive impact on your organization.

I look forward to hearing from you in the near future and hopefully scheduling an interview in which I hope to learn more about your company. Please keep in mind that I am available for an interview at any time that is convenient for you. Thank you for your time.

Sincerely,
Efrem Yohanis Anbese

IT Expert

WORK EXPERIENCE

IT Support

18-Sep-2022 to 15-Oct-2022

Adama Science and Technology University

At the time of my internship program at the ASTU Library department, my duties were that of an assistant to the IT support team. The skills I practiced include:-

Installation of different kinds of software and utility applications for employees and government trainees.

Fixing hardware issues such as replacing bad keyboards, replacing damaged hard drives, replacing random access memory (RAM) and so many other numerous hardware issues.

I took Linux Os training.

To whom it may concern

It is with great pleasure that I write a personal letter of recommendation for **Mr. Efrem Yohanis Anbese**. I am **Dr. Mohd Wazih** a lecturer in the Department of Computer Science and Engineering, School of Electrical Engineering and Computing at Adama Science and Technology University, Ethiopia. I have known him for five years as an Under Graduate student at Adama Science and Technology University, Department of Computer Science. I have got to see his excellent performance in class. He is one of the most decent students I have seen in my teaching experience.

Efrem was an active participant in our session discussions and he always supported his peers when any need arises. His caring nature and personality allow him to work well with others in a team setting as he always respects others' opinions even when they differ from his views. He explains his choice as motivated by a desire to put himself in others' shoes, look at the issues from a new perspective, and gain a clearer sense of the issue from all angles. Above all, his interaction and involvement in class discussion and laboratories are among the top points which make him absolutely wonderful student.

Furthermore, at a personal level, he is a very sincere, highly motivated, empathetic, ethical, sociable and passionate person. He is free of any addiction, known for a good smile, hardworking, and so respectful. On top of that, he is friendly and very punctual.

Lastly, I am very delighted to give my highest possible recommendation for **Efrem Yohanis Anbese**. I am certain that I will be hearing about his many academic achievements in the future. I strongly urge you to consider his application seriously. Do not hesitate to contact me to verify or need further inquiries from me at the addresses given below.

Kind regards

Dr. Mohd Wazih Ahmad

Letter of Recommendation

I am glad to get the opportunity to write this letter of recommendation for **Efrem Yohanis Anbese** to support his application for admission. Currently, I hold the designation of assistant professor at the Department of Computer Science and Engineering in Adama Science and Technology University. He had been my student for the past two years. He was a student in my Natural Language Processing course, which is how I first got to know him.

Efrem has a strong enthusiasm for computer science and engineering and has been one of the few extraordinarily talented students I have met. He was perceived as a dedicated, diligent, and sincere student during his time at school. He is motivated to learn by his assignments, projects, and the energy with which he engages in class discussion. His remarkable grasping ability is shown from his work. He is a social, engaging, and sophisticated student who adheres to both institutional and personal rules. Academically, he outperformed his classmates, frequently explained concepts to classmates, actively participated in discussions, and asked questions to make sure he fully understood them. Along with being diligent and considerate, he also has a charming personality, is well-mannered and charismatic, and is well-liked by his classmates and the department. He is a really good communicator. He gets along well with his classmates, whether they are in the classroom or part of a larger, more diverse student body. He is seen as a well-rounded guy with a friendly disposition and a sense of humor. He is a balanced person who likes a challenge.

As you can tell by now, I am quite impressed with this outstanding young man and give him my strongest recommendation for roles which require intelligence, communication skills, service and a positive attitude. Please, contact me if there is anything I can do on his behalf.

With regards;

Dr. Mesfin Abebe Haile (mesfin.abebe@astu.edu.et)

Computing****Dereje Tekilu Aseffa (PhD)****RECOMMENDATION LETTER**

It is honor and my pleasure to provide this recommendation to **Mr. Efrem Yohanis Anebes (ID. No A/ur14623/10)**, who is keen to join your organization. He is one of student that has been studying his bachelor of science in our school. He is one of the distinguished students in our school. I would rank him among best performer students with skills of communication, analyzing problem, designing solutions for engineering problems in his area of study **Computer Science and Engineering**.

I have known him for the last five years as a student. He is an organized person who is able to carry out any task allocated to him and he is dedicated to his work. I have closely seen him for about five years that he is highly motivated to exceed his current knowledge. I appreciate his excellence of work hard, integrity, loyalty, punctuality and his motive to achieve something better. In addition to his regular duty, he has been actively participating in different intra curricula and extra curricula activities in the School. He has been sociable, cooperative and problem solver student.

I highly recommend him for your organization and hope that you will carefully consider his application. Please feel free to contact me if you need any further information.

Yours Sincerely,

RECOMMENDATION LETTER

Dr. Biruk Yirga Nidaw (PhD)

*Computer Science and Engineering Department Head and Assistant Professor
at Adama Science and Technology University*

To whom it may concern

It is with pleasure that I recommend **Mr. .Efrem Yohanis Anbese (ID No A/UR14623/10)** . I have known him for the past three years as one of the students in the department I am head of (computer science and engineering department) at Adama Science and Technology University (ASTU). During this period and I have found him as impressive as his intellectual accomplishments, he is one of the distinguished students in our department for his skill in communication, analyzing problems, and designing a solution for engineering problems in his areas of study. His team BSC project is the **5th best project winner** from entire projects of the department of computer science and engineering department in the school of electrical and computing department at Adama Science and Technology University in the year 2022. He has proved his motivation and displays intelligence, and an analytical aptitude fit for post-graduate study and jobs in any organization.

To conclude, he is an enthusiastic and hardworking student with good communication and team cooperation capability. I strongly recommend him for any post-graduate studies or job in any company as he will be a good asset to any organization. Feel free to contact for any further information.

Yours sincerely,

Biruk Yirga Nidaw (PhD)
Head, Department of Computer
Science & Engineering
